

## Forklift Spreader Bar

Forklift Spreader Bars - ELME has been proudly operating ever since nineteen seventy four, becoming the biggest independent spreader maker all over the globe. They are a dedicated manufacturer of spreaders intended for a lot of different applications like the handling of containers, swap bodies and trailers.

Engineering is done in-house by way of making use of the newest FEM tools and CAD systems. The ELME company currently has more than 125 employees. Their spreaders are supplied to reach ship-to-shore cranes, stackers, straddle carriers, lift trucks, gantry and quayside all-over the globe.

The ELME product series offers spreaders designed for various container and trailer handling operations. Some of their inventory consist of: Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers in addition to a huge array of additional parts.

Production and manufacturing of ELME products are established in highly automated purpose designed factory. In the year 2008, they created one thousand one hundred fifty spreaders by making use of quality components so as to guarantee reliability and top standards. Major features of ELME include design simplicity, market feedback and innovative modular spreader concept.
