

Clark Forklift Part

Clark Forklift Parts - At present, there are at least 350,000 Clark forklifts performing globally, and upwards of 250,000 in use in North America alone. With five major lines across the globe, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, covers more than 120,000 specialized parts intended for 20 distinctive brands of forklifts and automated equipment. Your regional Clark Dealer is your total source for availability of all your parts requirements provided by Clark Totalift.

Clark's exceptional Parts Distribution Centers are conveniently stationed in Louisville, Kentucky, which serves both their consumers and sellers in North America, and Changwon, South Korea, which handles their Asian sellers and customers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Driven to provide the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to improving efficiency and benefiting performance.

Globally, Clark has one of the most impressive supplier support networks. With over 550 locations globally, supplier representation in over 80 nations and 230 locations in North America, their high level of commitment to their customers predominates the materials handling market.

Clark proudly remains an progressive leader of the industrial equipment industry, pioneering safety features such as the worker restraint system. This exceptional commitment to safety is now a customary feature on every forklift.

Clark's relentless mission to have the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift maker across the world to be certified with the globally accepted quality standard ISO 9001 for every one of their production plants. Also, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any number of environmental restrictions, thus placing them in a prevailing industry position.

Clark has selected the extremely economical and beneficial structure of "Lean Manufacturing" for its assembly plants and application of resources. This structure was established to acknowledge the most effective approaches of production facility management and ensuring maximum proficiency. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers join together to enhance the efficiency and excellence of their merchandise while minimizing expenses. The new value engineering program combines progressive product development and offers superior consumer support and service within the industry.
