

## Meritor Part

Meritor Parts - Meritor is a leading global supplier which is proudly built on a one hundred year tradition of quality and service. They specialize in a broad range of integrated systems, modules and components to original machine manufacturers and the aftermarket for the industrial and transportation sectors.

Meritor values the needs of all their clients to ensure their success while priding itself in the company's unique energy and feels this output of energy to be their aggressive advantage in their global operations. Meritor starts with a culture that values diversity of people and their broad thought processes. Operating in 19 countries and employing over eleven thousand two hundred individuals, Meritor encourages innovation and collaboration among a team of knowledgeable experts.

By just employing future focused employees, Meritor strongly feels these top-caliber workers will be able to rapidly get used to to changing surroundings and exhibit the commitment and performance needed in order to achieve results in the competitive materials handling business. The company empowers their teams to make sound business decisions so as to enhance the overall success of the company. In return, Meritor provides their staff various possibilities for personal and professional development.

Their Advanced Engineering team is at the forefront of parts and system engineering that include axles, drivelines, braking and suspension systems designed for heavy duty and medium trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is growing. They opened a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the entire Asia Pacific region. This team is also responsible for supporting the requirements of all their worldwide engineering staff.

Meritor's dynamic and customer focused Quality team is devoted to ensuring optimum processing at their production plants and aftermarket distribution facilities which are located all around the world in 19 countries and in 5 different continents.

They have their supplier network which is specially situated in order to support the development of the business. Every regional team has internationally supported quality systems, initiatives and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a fact-based, data-driven method to decision making in each part of the business. The DFSS or Design for Six Sigma ensures product reliability in each region. The team is also included transactional Green Belts who make use of Six Sigma tools to business processes and apply lean methods.
